Md. Asif Zaman

FullStack Developer (MERN)

Email: md.asif.8393@gmail.com   Contact: +88 01784248413

GitHub | LinkedIn   Address: Bashundhara R/A, Dhaka

Skills

Expertise: React, MongoDB, Express, Rest API, Firebase Authentication, Javascript, ES6, HTML, CSS, Axios, Bootstrap, MUI, Font Awesome, GitHub

Known: Android Studio, Data Structures, Algorithm, OOP

Projects

1. **Fancy Bikes** Website-Link | Client-Side-Code | Server-Side Code

   Tools: React, MongoDB, Express, Firebase Authentication, React Router, MUI, React Hook Form, Axios, Font Awesome, Dotenv

   Abstract:
   - Build Fancy Bikes as a full-stack bike selling website with fully functional admin panel activity
   - Logged in users can purchase bikes by providing detailed information, Users are capable to see their orders and cancel orders from the Users dashboard and also capable to rate our services which will be shown on the home page
   - Admin can add a bike with details information for selling which will be shown on the home page and can delete it too. Admin can also make a user as an admin, delete users orders and can update user order status shipped from pending

2. **Travelling is Fun** Website-Link | Client-Side-Code | Server-Side Code

   Tools: React Router, Bootstrap, React Hook Form, Axios, Font Awesome, Dotenv, React, MongoDB, Express, Firebase Authentication,

   Abstract:
   - Travelling is Fun is a full-stack travel agency website
   - A traveller can easily book a tour package from the website and can also cancel an ordered package from my orders page.
   - The role of the admin is to create a tour package, manage users booking like updating order status or deleting order

- Logging in using Google is mandatory to see all functionality.

3. **Doctors of Khulna City** [Website-Link](#) | [Apk](#) | [Website-Code](#) | [Android-App-Code](#)

   Tools: React, React Router, React Bootstrap, CSS

   Abstract:

- Created the site so that a patient can easily find doctors as his/her query
- A patient who wants to visit a doctor can find doctors by their fee, speciality and designation
- A patient can also see each doctor's degree, department, designation, fee, visiting hour, contact number, chamber address.
- Almost 250 real doctors data were collected to build this site.

Graduation

       Bachelor of Science in Computer Science and Engineering   May 2021

       North South University, Dhaka, Bangladesh

       CGPA: 3.12 / 4.00
